Att. Dr. Werner Langhans  
VP Business Development  
& International Relations  
ERA Systems Corporation

Prumyslova 387  
Pardubice, CZ 53003  
Czech Republic

At present time ERA a.s. is implementing under the Order of the Russian Aviation Authority and LEMZ R&P Corporation, a very important project of installation in Moscow Domodedovo international airport of P3D-AS (ERA MSS product) multilateration system for surface and final approach surveillance and its integration with A-SMGCS (level II) system together with the SMR. This project envisages large volume of work on installation of 30 ground sensors and 150 mobile sensors as well.

During this project implementation ERA a.s. and SRA are doing a very satisfactory and professional job in terms of system integration, system quality and project management. We are compliant with the contractual schedule as far as customer supplied infrastructure allows.

Victor Tikhov

Director for Marketing & Foreign Economic Relations  
LEMZ R&P Corp.
